BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. Section 37-13-134, Mississippi Code of 1972, is amended as follows:

37-13-134. (1) The Legislature recognizes that there is a problem with Mississippi student inactivity and obesity, and therefore requires the following guidelines for school district physical education, health education and physical activity and fitness classes:

(a) Kindergarten through Grade 8: One hundred fifty (150) minutes per week of physical activity-based instruction and forty-five (45) minutes per week of health education instruction, as defined by the State Board of Education.

(b) Grades 9 through 12: One-half (1/2) Carnegie unit requirement in physical education or physical activity for

graduation * * *. Beginning with the 2015-2016 Ninth Grade class,
an instructional component on the proper administration of
cardiopulmonary resuscitation (CPR) and the use of an automated
external defibrillator (AED) shall be included as part of the
physical education or health education curriculum. The * * *
curricula shall incorporate into the instruction the psychomotor
skills necessary to perform cardiopulmonary resuscitation and use
of an automated external defibrillator as follows:

(i) An instructional program developed by the
American Heart Association or the American Red Cross;

(ii) An instructional program which is nationally
recognized and is based on the most current national

(iii) A licensed teacher shall not be required to
be a certified trainer of cardiopulmonary resuscitation, to
facilitate, provide or oversee such instruction for
